Taihoku, 21 February -- On 20 February 1950, Nationalist planes based at Ting-hai bombed and severely damaged the Nanking Power Plant. The Air Force Command at Ting-hai reported they believe that a number of B-24 bombers made hits with many 500-pound bombs on the large power plant on the bank of the Yangtze River at Nanking. A little earlier, a number of B-25 bombers bombed the principal power station in the city.

According to today's statement by the Ministry of Military Aviation, a large number of Nationalist military planes yesterday for the second time in succession bombed the Nanking Electric Power Plant. As the result of these two bombings, this plant is completely destroyed; Nanking is without a supply of electric power. In the earlier of the two raids, the plant was severely damaged but not destroyed.
